IMPORTANT FACTS & FIGURE

WHAT IS PHYGITAL EXPO?

- 7th Agritec Africa now added **Digital version** of the exhibition along with the **physical Exhibition**, so it's called **PHYGITAL EXHIBITION**. Digital Edition will take place from **1st May 2021 to 30th June 2021**. Exhibitors have the opportunity to participate in Digital as well as physical versions of Agritec Africa and grab the opportunity to interact with the important stake holders.
- We believe that such intellectual use of technology in Agritec Africa will definitely give more mileage to our Exhibitors and, on the contrary, it will bring ease of interaction to International visitors who are willing to meet the Exhibitors.

PLATFORM TO MEET

- Registration on our website allows you to manage your meetings and at the same time profile yourself in a way that will attract potential business partners, Distributors, Dealers and Importers.
- The service is aimed at senior-level executives and it will include industry specific Government bodies and corporate that enable you to pre-arrange one-on-one meetings in your desired areas.
- It is an opportunity to arrange pre schedule meetings, where in, interest registered by visitors will be transferred to relevant companies based upon their offerings. No matter what side of the table you are on, Pre Schedule Meeting lets you easily and efficiently share and receive information, orders, trends, product details, market insight, etc.

MEETING**

AGRICULTURE & KENYA

- Kenya's agriculture sector directly influences overall economic performance through its contribution to GDP. Periods of high economic growth rates have been synonymous with increased agricultural growth. Several untapped crops cultivation in Kenya affect African Economy - Tea, Coffee, Sugar, Horticulture, Floriculture, Cotton, Macadamia Nuts, etc.
- Kenya is a leading producer of tea and coffee, as well as third leading exporter of fresh produce, such as cabbage, onions and mangoes. Small farms grow most of the corn and also produce potatoes, beans and peas.
- Kenya Vision 2030 was launched in 2008 as Kenya's development blueprint covering the period 2008 to 2030. It was aimed at making Kenya a newly industrializing, "middle income country providing high quality life for all its citizens by the year 2030".
- Government will also focus on the 2030 Agenda for Sustainable Development and its 17 Sustainable Development Goals (SDGs) adopted by world leaders in 2015, to embody a roadmap for progress that is behind sustainable and leaves no one behinds.
- The Vision was developed through an all-inclusive stakeholder consultative process, involving Kenyans from all parts of the country. H.E. President Uhuru Kenyatta Conceptualized "The Big4 Agenda" for various aspects including Food & Nutrition Security, to accelerate the Vision 2030. Under this Big 4 agenda Government aimed to drive smallholder productivity, reduce the cost of food and enhance large scale farming & Manufacturing; specifically on Agro- Processing where the government intends to generate over \$200 Million annually in value additions.

WHY AGRITEC AFRICA IN KENYA?

The Economy of Kenya is the largest by GDP in East and Central Africa. Agriculture is a major employer and the country traditionally exports tea, coffee and most recently fresh flowers to the Europe. The service industry is a major economic driver.

Kenya's monsoon season starts during April to June, after which 'short rains' season prevails till November. Currently Kenya is aiming to create a globally competitive and prosperous nation with a high quality of life by 'Vision 2030'. The vision is anchored on three key pillars, economic, social and political governance.
